## PART I - FINANCIAL INFORMATION

### Item 1. Financial Statements.

The accompanying unaudited financial statements have been prepared in accordance with generally accepted accounting principles for interim financial reporting and pursuant to the rules and regulations of the Securities and Exchange Commission ("Commission"). While these statements reflect all normal recurring adjustments which are, in the opinion of management, necessary for fair presentation of the results of the interim period, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. For further information, refer to the financial statements and footnotes thereto, which are included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2014 as filed with the Commission on March 30, 2015.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

**NOTE 1 - BASIS OF PRESENTATION**

The interim condensed consolidated financial statements included herein, presented in accordance with accounting principles generally accepted in the United States of America (“GAAP”), have been prepared by the Company, without audit, pursuant to the rules and regulations of the Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading.

These statements reflect all adjustments, consisting of normal recurring adjustments, which, in the opinion of management, are necessary for fair presentation of the information contained therein. It is suggested that these interim condensed consolidated financial statements be read in conjunction with the audited financial statements of the Company for the year ended December 31, 2014 and notes thereto included in the Company's Annual Report on Form 10-K. The Company follows the same accounting policies in the preparation of interim reports.

Results of operations for the interim periods are not indicative of annual results.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Cash and cash equivalents

For purpose of the statements of cash flows, the Company considers cash and cash equivalents to include all stable, highly liquid investments with maturities of three months or less.

Restricted cash

The Company maintains a restricted cash balance totaling \$1,500 as part of its operating requirements in a non-interest-bearing account that currently does not exceed federally insured limits.

Concentration of credit risk

The Company primarily transacts its business with one financial institution. The amount on deposit in that one institution may from time to time exceed the federally-insured limit.

Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income taxes

The Company accounts for its income taxes under the provisions of Accounting Standards Codification (“ASC”) Topic 740, “Income Taxes.” The method of accounting for income taxes under ASC 740 is an asset and liability method. The asset and liability method requires the recognition of deferred tax liabilities and assets for the expected future tax consequences of temporary differences between tax bases and financial reporting bases of other assets and liabilities.

Revenue recognition

Revenue is derived on a per message/notification basis through the Company’s patented technologies and a modular, adaptable platform designed to create multi-channel messaging gateways for all types of connected devices. The Company also earns revenue for services, such as programming, licensure on Software as a Service (“SaaS”) basis, and on a performance basis, such as when a client acquires a new customer through our platform. Revenue is recognized in accordance with Staff Accounting Bulletin (“SAB”) No. 101, “Revenue Recognition in Financial Statements,” as revised by SAB No. 104. As such, the Company recognizes revenue when persuasive evidence of an arrangement exists, title transfer has occurred, the price is fixed or readily determinable, and collectability is probable. Sales are recorded net of sales discounts.

**SPINDLE, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**

Accounts receivable

Accounts receivable is reported at the customers' outstanding balances, less any allowance for doubtful accounts. Interest is not accrued on overdue accounts receivable.

Allowance for doubtful accounts

An allowance for doubtful accounts on accounts receivable is charged to operations in amounts sufficient to maintain the allowance for uncollectible accounts at a level management believes is adequate to cover any probable losses. Management determines the adequacy of the allowance based on historical write-off percentages and information collected from individual customers. Accounts receivable are charged off against the allowance when collectability is determined to be permanently impaired.

Inventory

Inventories consist of merchandise held for sale in the ordinary course of business, including cost of freight and other miscellaneous acquisition costs, and are stated at the lower of cost or market. The Company records a write-down for inventories which have become obsolete or are in excess of anticipated demand or net realizable value. The Company performs a detailed review of inventory each period that considers multiple factors including demand forecasts, market conditions, product life cycle status, product development plans and current sales levels. If future demand or market conditions for the Company's products are less favorable than forecasted or if unforeseen changes negatively affect the utility of the Company's inventory, it may be required to record additional write-downs, which would negatively affect gross margins in the period when the write-downs are recorded. If actual market conditions are more favorable, the Company may have higher gross margins when products incorporating inventory that were previously written down are sold.

Property and equipment

Property and equipment are stated at cost. Major renewals and improvements are charged to the asset accounts while replacements, maintenance and repairs that do not improve or extend the lives of the respective assets are expensed. At the time property and equipment are retired or otherwise disposed of, the asset and related accumulated depreciation accounts are relieved of the applicable amounts. Gains or losses from retirements or sales are credited or charged to income.

Depreciation is computed on the straight-line and accelerated methods for financial reporting and income tax reporting purposes based upon the following estimated useful lives:

Computer software	3 years
Computer hardware	5 years
Office furniture	7 years

Long-lived assets

The Company accounts for its long-lived assets in accordance with ASC Topic 360-10-05, "Accounting for the Impairment or Disposal of Long-Lived Assets." ASC Topic 360-10-05 requires that long-lived assets be reviewed for impairment whenever events or changes in circumstances indicate that the historical cost carrying value of an asset may no longer be appropriate. The Company assesses recoverability of the carrying value of an asset by estimating the future net cash flows expected to result from the asset, including eventual disposition. If the future net cash flows are less than the carrying value of the asset, an impairment loss is recorded equal to the difference between the asset's carrying value and fair value or disposable value.

Goodwill

The Company accounts for goodwill in accordance with ASC Topic 805-30-25, "Accounting for Business Combinations" and ASC Topic 350-20-35, "Accounting for Goodwill - Subsequent Measurement".

**SPINDLE, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**

ASC Topic 805-30 requires that the acquirer recognize goodwill as of the acquisition date as the excess of the fair value of the consideration transferred over the fair value of the net acquisition-date amounts of the identifiable assets and liabilities assumed.

ASC Topic 350-20-35 requires that goodwill acquired in a purchase and determined to have an indefinite useful life is not amortized, but instead tested for impairment annually or more frequently when events or circumstances indicate that the carrying value of a reporting unit more likely than not exceeds its fair value. The Company's annual goodwill impairment testing date is December 31 of each year. The Company first assesses qualitative factors to determine whether it's necessary to perform the two-step goodwill impairment test. Impairment is the condition that exists when the carrying amount of goodwill exceeds its implied fair value. If the qualitative assessment results in an indication that it's more likely than not that the fair value of a reporting unit is less than its carrying amount, then a quantitative assessment must be performed. Management has determined that the Company has one reporting unit for purposes of testing goodwill.

The quantitative analysis involves estimating the fair value of its reporting unit utilizing a combination of valuation methods including market capitalization, the income approach and cash flows. Income and cash flow forecasts were used in the evaluation of goodwill based on management's estimate of future performance. If goodwill is determined to be impaired as a result of this analysis, an impairment loss is recorded equal to the difference between the asset's carrying value and fair value. The Company recorded an impairment to its goodwill for the year ended December 31, 2014 as further discussed in Note 10.

Capitalized software development costs

The Company capitalizes internal software development costs subsequent to establishing technological feasibility of a software application. Capitalized software development costs represent the costs associated with the internal development of the Company's software applications. Amortization of such costs is recorded on a software application-by-application basis, based on the greater of the proportion of current year sales to the total of current and estimated future sales for the applications or the straight-line method over the remaining estimated useful life of the software application. The Company continually evaluates the recoverability of capitalized software costs and will charge to operations amounts that are deemed unrecoverable for projects it abandons.

Stock-based compensation

The Company accounts for stock-based payments to employees in accordance with ASC 718, "Stock Compensation" ("ASC 718"). Stock-based payments to employees include grants of stock, grants of stock options and issuance of warrants that are recognized in the consolidated statement of operations based on their fair values at the date of grant.

The Company accounts for stock-based payments to non-employees in accordance with ASC 505-50, "Equity-Based Payments to Non-Employees." Stock-based payments to non-employees include grants of stock, grants of stock options and issuances of warrants that are recognized in the consolidated statement of operations based on the value of the vested portion of the award over the requisite service period as measured at its then-current fair value as of each financial reporting date. The Company calculates the fair value of option grants and warrant issuances utilizing the Binomial pricing model. The amount of stock-based compensation recognized during a period is based on the value of the portion of the awards that are ultimately expected to vest. ASC 718 requires forfeitures to be estimated at the time stock options are granted and warrants are issued to employees and non-employees, and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. The term "forfeitures" is distinct from "cancellations" or "expirations" and represents only the unvested portion of the surrendered stock option or warrant.

**SPINDLE, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED**

The Company estimates forfeiture rates for all unvested awards when calculating the expense for the period. In estimating the forfeiture rate, the Company monitors both stock option and warrant exercises as well as employee termination patterns. The resulting stock-based compensation expense for both employee and non-employee awards is generally recognized as compensation under ASC Topic 505-50. In accordance with ASC 505-50, the cost of stock-based compensation is measured at the grant date based on the value of the award and is recognized over the vesting period. The value of the stock-based award is determined using the Binomial or Black-Scholes option-pricing models, whereby compensation cost is the excess of the fair value of the award as determined by the pricing model at the grant date or other measurement date over the amount that must be paid to acquire the stock.

Loss per share

The Company reports earnings (loss) per share in accordance with ASC Topic 260-10, "Earnings per Share." Basic earnings (loss) per share is computed by dividing income (loss) available to common shareholders by the weighted average number of common shares available. Diluted earnings (loss) per share is computed similar to basic earnings (loss) per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. Diluted earnings (loss) per share has not been presented since the effect of the assumed conversion of warrants and debt to purchase common shares would have an anti-dilutive effect. Potential common shares as of June 30, 2015 that have been excluded from the computation of diluted net loss per share amounted to 3,383,750 shares and include 600,000 warrants and 2,783,750 options. Of the 2,783,750 potential common shares that could be issued upon the exercise of the options at June 30, 2015, 837,917 had not vested.

Recent accounting pronouncements

The Company continually assesses any new accounting pronouncements to determine their applicability to the Company. Where it is determined that a new accounting pronouncement affects the Company's financial reporting, the Company undertakes a study to determine the consequence of the change to its financial statements and assures that there are proper controls in place to ascertain that the Company's financials properly reflect the change.

**NOTE 3 - GOING CONCERN**

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As shown in the accompanying financial statements, the Company has incurred a net loss of (\$340,912) and (\$1,488,429) for the three and six months ended June 30, 2015, respectively, and has an accumulated deficit of (\$16,740,846). The Company incurred a net loss of (\$3,299,493) and (\$4,327,886) for the three and six months ended June 30, 2014, respectively, and has an accumulated deficit of (\$10,658,281).

In order to continue as a going concern, the Company will need, among other things, additional capital resources. The Company is significantly dependent upon its ability, and will continue to attempt, to secure equity and/or additional debt financing. The Company has recently issued debt securities and may conduct an offering of its equity securities to raise proceeds to finance its plan of operation. There are no assurances that the Company will be successful and without sufficient financing it would be unlikely for the Company to continue as a going concern.

The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts of and classification of liabilities that might be necessary in the event the Company cannot continue in existence. These conditions raise substantial doubt about the Company's ability to continue as a going concern. These financial statements do not include any adjustments that might arise from this uncertainty.

On May 26, 2015, the Company entered into a loyalty agreement with Help Worldwide, Inc. (“HWW”). The loyalty agreement provides that, upon the terms and subject to the conditions set forth therein, the Company will join the HWW network and become a licensed Loyalty Program Operator (“LPO”) to enable the delivery of a Yowza!! Points program for consumers and merchants in the Yowza!! program. Additionally, HWW will build a Yowza!! branded Rewards Mall for the redemption of Yowza!! Points. Consideration payable to HWW for the LPO is 3,000,000 unregistered shares of the Company's common stock (the “Common Stock”), which shall be issued directly to HWW. Pursuant to the Agreement, the Company and HWW will bundle their respective products to create a bundled package that will combine and co-brand the features of both parties' products (the “Bundled Package”). HWW will promote the Bundled Package including the co-branded mobile application to 30 million consumers. The consideration payable to HWW for the Bundled Package (“Trademark”) is 4,000,000 unregistered shares of the Company's Common Stock which shall be issued directly to HWW. The aggregate consideration to be paid to HWW for the Agreement is seven million (the “Closing Share Consideration”) shares of Common Stock.

On May 26, 2015, the Company entered into a loyalty agreement with HWW as described in Note 7 in exchange for the trademark valued at \$920,000 in exchange for 4,000,000 shares of Common Stock.

**NOTE 9 - RESIDUAL CONTRACTS**

On December 31, 2012, the Company acquired the residual income stream of Parallel Solutions Inc. (“PSI”). This revenue was perpetual, provided that the vendor’s contract with PSI was not terminated. The calculations for the value associated with anticipated new income resulting from the acquired PSI residual contracts was determined based on PSI’s residual revenue stream for the period from November of 2011 to October 2012 of \$535,722 and historical PSI’s termination rates of nil. The Company used the lowest industry standard multiple of (1.1) to determine the fair value of the contractual revenue stream as of the date of acquisition which was estimated to be \$589,294.

On June 4, 2015 the Company entered into an agreement to sell the PSI residual income stream for a purchase price of \$753,740. As a result of this transaction, \$373,154 was recorded as a gain on sale of assets for the three and six months ended June 30, 2015. As of June 30, 2015, the Company has received \$508,751 of the purchase price and the balance of \$244,989 is recorded to short-term receivables.

In connection with the acquisition on March 20, 2013, the Company assumed certain liabilities and acquired substantially all of the assets of MeNetwork. The Company recorded goodwill related to this acquisition of \$2,679,970. During its annual evaluation of goodwill, the Company determined that the carrying amount of goodwill related to MeNetwork, exceeded its fair value. As a result the Company recorded an impairment loss, to other expense, of \$669,993 during the year ended December 31, 2014. This charge reflects the impact of partially sun setting assets acquired from MeNetwork in conjunction with the Company's integration of Yowza!!

In connection with the acquisition (as further described in Note 14) on January 3, 2014, the Company assumed certain liabilities and acquired substantially all of the assets of Yowza!!. The Company recorded goodwill related to this acquisition of \$3,291,932. During its annual evaluation of goodwill, the Company determined that the fair value of goodwill exceeded its carrying amount and as a result no impairment charge was recorded.

**NOTE 11 - NOTES PAYABLE - RELATED PARTY**

On December 15, 2011, the Company issued a Promissory Note ("Note") to a director of the Company formalizing various advances previously received from the director in the amount of \$51,300 and allowing for future advances of up to \$250,000. The note is non-interest bearing, unsecured and matured on December 15, 2014. The Company imputed interest at a rate of 2% per annum and recorded a discount in the amount of \$10,640. In connection with one of the previous advances in the amount of \$25,000, the Company issued warrants to purchase up to 250,000 shares of the Company's common stock at a price per share of \$1.00 resulting in an additional discount of \$17,709. The total discount attributable to the Note totaled \$28,349 and is being amortized to interest expense over the term of the note. During the three and six months ended June 30, 2015, the Company has not made any payments on the Note. As of June 30, 2015, this Note has not been repaid in accordance with the terms of the note and the Company is process of negotiating new terms on the unpaid balance.

On June 30, 2014, the Company recorded a \$100,000 note payable to a director of the Company. The note is non-interest bearing and unsecured. The Company imputed interest at a rate of 2% per annum and recorded a discount in the amount of \$110.

During the three and six months ended June 30, 2015, interest expense of \$27 and \$54, related to amortization of the discount and interest on the unpaid notes was recorded, respectively.

**NOTE 13 - WARRANTS AND OPTIONS**

On November 14, 2011, the Company issued warrants to purchase shares of the Company's common stock to a related-party in conjunction with a promissory note. The warrant holder was granted the right to purchase 250,000 shares of common stock of the Company for an aggregate purchase price of \$250,000 or \$1.00 per share. The aggregate fair value of the warrants totaled \$387,500 based on the Black Scholes Merton pricing model using the following estimates: 2.75% risk free rate, 65% volatility and expected life of the warrants of 10 years.

On October 29, 2012, our stockholders approved the 2012 Stock Incentive Plan (the "Plan") that governs equity awards to our management, employees, directors and consultants. On November 7, 2013, our stockholders approved an amendment to the Plan which increased the total authorized amount of common stock issuable under the Plan from 3,000,000 to 6,000,000 shares.

On March 11, 2015 the Board of Directors approved a private placement offering (the "Offering") comprised of a unit (the "Unit"). Each Unit consists of one share of the Company's common stock and one three-year warrant to purchase one share of the Company's common stock. During the six months ended June 30, 2015, the Company sold 350,000 units under this offering.

### Forward-Looking Statements

This Quarterly Report on Form 10-Q (the "*Quarterly Report*") contains forward-looking statements about Spindle Inc.'s ("*SPDL*," "*we*," "*us*," or the "*Company*") business, financial condition and prospects that reflect management's assumptions and beliefs based on information currently available. We can give no assurance that the expectations indicated by such forward-looking statements will be realized. If any of our management's assumptions should prove incorrect, or if any of the risks and uncertainties underlying such expectations should materialize, Spindle's actual results may differ materially from those indicated by the forward-looking statements. You should not place undue reliance on these forward-looking statements.

The key factors that are not within our control and that may have a direct bearing on operating results include, but are not limited to, whether our services are accepted in the marketplace, our ability to expand our customer base, managements' ability to raise capital in the future, the retention of key employees and changes in the regulation of our industry.

There may be other risks and circumstances that management may be unable to predict. When used in this Quarterly Report, words such as, "*believes*," "*expects*," "*intends*," "*plans*," "*anticipates*," "*estimates*" and similar expressions are intended to identify forward-looking statements, although there may be certain forward-looking statements not accompanied by such expressions.

The forward-looking statements are made as of the date of this report. We undertake no obligation to publicly update or revise any forward-looking statements included in this Quarterly Report.

### Overview

We were originally incorporated in the State of Nevada on January 8, 2007 as "Coyote Hills Golf, Inc." We were previously an online retailer of golf-related apparel, equipment and supplies, however, we generated minimal revenues from that line of business. With our acquisition of Spindle Mobile, Inc. in December 2011, we became a commerce-centric company with three primary customers: 1) individual consumers (buyers); 2) individual businesses (merchants or sellers); 3) third party resellers, such as advertising and content media companies, and merchant services providers and other resellers. We generate revenue under the Spindle product line through our patented cloud-based payment processes. We believe that our secure payments process as well as coupons, offers and loyalty programs and open consumer feedback about the products consumers purchase from the merchants we serve creates trust between consumers and merchants. We provide the platform for the secure movement of funds between these parties as well as provide to brands, merchants, and institutions the conversion tools necessary to deliver a seamless frictionless finance system.

We have been growing our business through acquisitions and we expect to continue to expand in this manner.

On December 31, 2012 (the "PSI Acquisition Closing Date"), pursuant to that certain Asset Purchase Agreement (the "PSI Agreement") by and between us and Parallel Solutions Inc., a Nevada corporation ("PSI"), we acquired substantially all of the assets used in connection with Parallel's business of facilitating electronic payment processing services to merchants (the "PSI Assets"), assumed certain specified liabilities. On June 4, 2015 the Company entered into an agreement to sell the PSI residual income stream for a purchase price of \$753,740.

On March 20, 2013 (the "MeNetwork Closing Date"), we assumed certain liabilities and acquired substantially all the assets of MeNetwork, Inc. ("MeNetwork") used in connection with its business of developing, marketing and licensing a mobile marketing platform for use by merchants and consumers (the "MeNetwork Assets"), pursuant to an Asset Purchase Agreement, dated March 1, 2013 (the "MeNetwork Agreement"). As consideration for the assumption of the liabilities and the acquisition of the MeNetwork Assets, we issued an aggregate of 2,750,000 shares of common stock to the stockholders of MeNetwork, of which 350,000 shares were held in escrow for a period of one year from the MeNetwork Closing Date for the purposes of satisfying any indemnification claims.

The escrow has been terminated and the shares of common stock have been released. In addition, upon the earlier of 180 days following the MeNetwork Closing Date or a change in control of Spindle, we agreed to issue an additional 750,000 shares of common stock to Ashton Craig Page, the director and Chief Operating Officer of MeNetwork and a current director of Spindle. On October 7, 2013 the 750,000 shares were issued to Mr. Page pursuant to the terms and conditions of the MeNetwork Agreement. On December 12, 2014, the Company, and Ashton Craig Page, in his capacity as the representative of MeNetwork and the MeNetwork Stockholders (the "Representative"), entered into an Amendment and Waiver to Asset Purchase Agreement (the "Amendment"), pursuant to which the Company agreed to issue and the Representative agreed to accept on behalf of MeNetwork and the MeNetwork Stockholders an acceleration of the issuance of up to an aggregate of 1,000,000 Earnout Shares on or before December 31, 2014 in full satisfaction of all obligations of the Company to issue the Earnout Shares pursuant to the Purchase Agreement during the Earnout Period. These shares were issued on December 23, 2014.

On January 3, 2014 (the "Yowza Closing Date"), the Company acquired substantially all of the assets of Yowza International Inc. (renamed Y Dissolution, Inc.) ("Yowza!!") used in connection with its business of providing retail coupons through a mobile application (the "Yowza Assets"), and assumed certain liabilities of Yowza!! in an amount equal to \$15,000 for consideration equal to (1) \$500,000 in cash paid to Yowza!! and certain creditors and holders of outstanding promissory notes issued by Yowza!! and (2) an aggregate of 1,642,000 unregistered shares of our common stock (the "Aggregate Share Consideration"), issuable to the holders of Yowza!!'s outstanding capital stock. Ten percent of the Aggregate Share Consideration was issued to certain executive management members and advisors of Yowza!! in accordance with consulting or employment agreements and subject to certain vesting provisions. In addition, an aggregate of 197,052 shares of common stock (the "Indemnification Escrow"), representing approximately 12% of the Aggregate Share Consideration, was deposited in escrow for a period of one year from the Yowza Closing Date for the purpose of satisfying Yowza's indemnification obligations under the Asset Purchase Agreement, and for any necessary accounts receivable adjustment after the Yowza Closing Date. The Yowza!! Indemnification Escrow was released on January 12, 2015 and the escrow has been terminated.

Because our operating expenses exceed our revenues, we have relied primarily on sales of our securities and loans from related parties to fund our operations. We will continue to require substantial funds to support our operations and carry out our business plan. Our working capital requirements and the cash flow provided by future operating activities, if any, will vary greatly from quarter to quarter, depending on the volume of business during the period and payment terms with our channel partners. We may not be successful in raising additional funds as needed or if successful we may not be able to raise funds on terms that are favorable to us. We cannot guarantee that we will ever be profitable. As a result, our independent registered accounting firm has expressed doubt about our ability to continue as a going concern.

Our potential revenue streams are relatively new and have only recently begun to contribute materially to our operations. As a result, we are unable to forecast future revenue. Our management is hopeful that as our base of operations continues to grow, we will see a corresponding increase in licensing and transactional revenue.

## **Results of Operations**

### *Revenues and Cost of Sales*

Revenues from ongoing operations are expected to be derived from our patented conversion and networked payment processes under the Spindle product line and licensing of our intellectual property. During the three and six months ended June 30, 2015, the Company generated \$128,233 and \$293,281 in revenues, respectively, from its payment and transactional platform. The cost of sales, which are comprised of equipment cost of goods sold, web hosting fees, merchant and interchange fees, and commissions paid to the independent sales agents, for the three and six months ended June 30, 2015 were \$46,441 and \$93,923, respectively. This compares to revenues during the three and six months ended June 30, 2014 of \$177,947 and \$475,872, respectively, and cost of sales of \$96,937 and \$193,005, respectively. Gross profit during the three and six months ended June 30, 2015 was \$81,792 and \$199,358, respectively. Gross profit during the three and six months ended June 30, 2014 was \$81,010 and \$282,867, respectively.

The period-over-period decrease in revenues and gross profit is partially due to management's decision to focus the majority of resources over the past year on platform integration and the Yowza!! application development at the expense of short-term revenue generation. The sale of the PSI residual asset also contributed the decline in revenue. The PSI residual asset revenue was \$45,887 and \$170,165 for the three and six months ended June 30, 2015, respectively, compared to \$195,295 and \$407,302 for the three and six months ended June 30, 2014, respectively.

The decision to embed new and innovative features in the Company's software platform, along with the increased complexities of integrating the Yowza!! platforms, delayed the Company's sales efforts. Management also reviewed the profitability of all of the Company's customer relationships, which resulted in the strategic cancellation of contracts that did not generate positive cash flow to the Company. Management believes that the full technology platform development has now reached the stage where the Company can begin to aggressively sell its solutions to the market. Management expects to see increases in licensing and transactional revenue in future quarters by bringing the full platform to market more quickly than would have otherwise been possible, and in a much more methodical and strategic manner.

#### EBITDA

We define Adjusted EBITDA as consolidated operating income before depreciation, amortization of intangible assets, stock-based compensation, and special charges. We use Adjusted EBITDA to evaluate the underlying performance of our business, and a summary of Adjusted EBITDA, reconciling GAAP amounts (i.e., items reported in accordance with U.S. Generally Accepted Accounting Principles) to Adjusted EBITDA amounts (i.e., items included within Adjusted EBITDA as defined directly above) for the fiscal quarters ended June 30, 2015 and 2014 follows:

We have presented Adjusted EBITDA above because we believe it conveys useful information to investors regarding our operating results. We believe it provides an additional way for investors to view our operations, when considered with both our GAAP results and the reconciliation to net income (loss). By including this information we can provide investors with a more complete understanding of our business. Specifically, we present Adjusted EBITDA as supplemental disclosure because of the following:

- We believe Adjusted EBITDA is a useful tool for investors to assess the operating performance of our business without the effect of interest, income taxes, and other non-operating expenses as well as depreciation and amortization which are non-cash expenses;
- We believe that it is useful to provide investors with a standard operating metric used by management to evaluate our operating performance; and
- We believe that the use of Adjusted EBITDA is helpful to compare our results to other companies.

Even though we believe Adjusted EBITDA is useful for investors, it does have limitations as an analytical tool. Thus, we strongly urge investors not to consider this metric in isolation or as a substitute for net income (loss) and the other consolidated statement of operations data prepared in accordance with GAAP. Some of these limitations include the fact that:

- Adjusted EBITDA does not reflect our cash expenditures or future requirements for capital expenditures or contractual commitments;
- Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs;
- Adjusted EBITDA does not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments, on our debt;
- Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and Adjusted EBITDA does not reflect any cash requirements for such replacements;
- Adjusted EBITDA does not reflect income or other taxes or the cash requirements to make any tax payments; and
- Other companies in our industry may calculate Adjusted EBITDA differently than we do, thereby potentially limiting its usefulness as a comparative measure.

Because of these limitations, Adjusted EBITDA should not be considered a measure of discretionary cash available to us to invest in the growth of our business or as a measure of performance in compliance with GAAP. We compensate for these limitations by relying primarily on our GAAP results and providing Adjusted EBITDA only as supplemental information.

### *Operating Expenses*

In the course of our operations, we incur operating expenses composed largely of general and administrative costs and professional fees. General and administrative expenses are essentially the cost of doing business, and encompass, without limitation, the following: research and development; licenses; taxes; general office expenses, such as postage, supplies and printing; rent; utilities; bank charges; and other miscellaneous expenditures not otherwise classified. Accounting fees include: auditing by our independent registered public accountants, bookkeeping, tax preparation fees for filing Federal and State income tax returns and other accounting-specific consulting services. Professional fees include: transfer agent fees for printing stock certificates; consulting costs for marketing and advertising; general business development; legal fees; and costs related to the preparation and submission of reports and information or proxy statements with the Commission.

For the three and six months ended June 30, 2015, we incurred operating expenses in the amount of \$795,477 and \$2,059,971, respectively, as compared to \$3,379,944 and \$4,609,485 for the three and six months ended June 30, 2014, respectively. The amounts for the three and six months ended June 30, 2015 are comprised of \$141,653 and \$289,612 in depreciation and amortization expense related to our intellectual property and fixed assets; \$(1,048) and \$25,457, in promotional and marketing; \$76,287 and \$160,580 in consulting fees; \$379,123 and \$1,140,553 in salaries and wages; \$37,500 and \$82,500 in directors fees; \$91,178 and \$241,897 in professional fees; and \$70,784 and \$119,372 in general and administrative expenses.

Operating expenses have declined compared to the six months ended June 30, 2014. We have remained focused on controlling costs, while we continue to develop and grow revenues and Yowza!! We expect operating expenses to increase at a rate directly proportional to our growth.

### *Interest Income and Other Expense*

During the three and six months ended June 30, 2015, we recognized interest expense of \$381 and \$970, respectively. This compares to \$559 and \$1,268 in interest expense for the three and six months ended June 30, 2014, respectively.

During the three and six months ended June 30, 2015, we recognized a gain on the sale of the PSI asset of \$373,154. This was a one-time gain and do not expect this to be a recurring item.

### *Net Losses*

We have experienced net losses in all periods since our inception. Our net loss for the three and six months ended June 30, 2015 was \$340,912 and \$1,488,429, respectively. Net losses are attributable to the Company's acquisition and development of Yowza!!, ongoing Payment Card Services (PCI) certifications and maintenance, extensive internal software development, and deployment of the Company's initial suite of payment products. During the three and six months ended June 30, 2014, we incurred a net loss of \$3,299,493 and \$4,327,886, respectively.

We anticipate incurring ongoing operating losses and cannot predict when, if at all, we may expect these losses to plateau or narrow.

### **Liquidity and Capital Resources**

Cash used in operating activities during the six months ended June 30, 2015 was \$870,695 compared to \$1,466,456 of cash used in operations during the comparable period ended June 30, 2014. The decrease in the use of cash for operating activities is primarily the result of the Company's management of its cash spend during the continued development of the Yowza!! integration and non-cash expenses recognized in net loss, such as stock based compensation. We also realized a gain on the strategic sale of the PSI residual asset of \$373,154. We expect this use of cash to increase at a rate in direct proportion to our growth.

During the six months ended June 30, 2015, net cash provided by investing activities totaled \$541,259 of which \$753,740 was realized in a sale of the PSI residual asset, offset by \$212,481 of labor costs related to continuing software development. During the comparable six month period ended June 30, 2014, net cash used in investing activities totaled \$789,866, of which \$501,071 was utilized in the acquisition of Yowza!! and \$288,499 was attributable to labor costs related to software development.

During the six months ended June 30, 2015, net cash provided by financing activities totaled \$430,000 comprised of \$175,000 which was received from investors purchasing shares of our common stock and \$255,000 which was classified as an advance to the Company. In comparison, during the six months ended June 30, 2014, financing activities provided \$1,597,500, comprised of \$1,552,500 which was received from investors purchasing shares of our common stock, \$100,000 which was classified as a note payable from a related party, offset by \$55,000 in debt repayment to related parties.

As of June 30, 2015, we had \$270,371 of cash on hand, which is exclusive of \$1,500 of restricted cash. Our management believes this amount is not sufficient to maintain our operations for at least the next 12 months. We are actively pursuing opportunities to raise additional capital through sales of our equity and/or debt securities for cash. We cannot assure you that any financing can be obtained or, if obtained, that it will be on reasonable terms. As such, our principal accountants have expressed doubt about our ability to continue as a going concern because we have limited operations and have not fully commenced planned principal operations.

This report discusses our financial statements, which have been prepared in accordance with GAAP. The preparation of the financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. On an on-going basis, we evaluate our estimates and judgments, including those related to revenue recognition, recoverability of intangible assets, and contingencies and litigation. We base our estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. The most significant accounting estimates inherent in the preparation of our consolidated financial statements include estimates as to the appropriate carrying value of certain assets and liabilities which are not readily apparent from other sources, primarily the valuation of intangible assets. The methods, estimates and judgments we use in applying these most critical accounting policies have a significant impact on the results we report in our consolidated financial statements.

#### **Critical Accounting Policies**

Certain accounting policies and estimates are particularly important to the understanding of our financial position and results of operations and require the application of significant judgment by our management or can be materially affected by changes from period to period in economic factors or conditions that are outside of our control. As a result, they are subject to an inherent degree of uncertainty.

In applying these policies, our management uses their judgment to determine the appropriate assumptions to be used in the determination of certain estimates. Those estimates are based on our historical operations, our future business plans and projected financial results, the terms of existing contracts, our observance of trends in the industry, information provided by our customers and information available from other outside sources, as appropriate. Please see Note 2 to our financial statements for a more complete description of our significant accounting policies.

##### *Intangible assets and software development costs*

Management regularly reviews property, equipment, intangibles and other long-lived assets for possible impairment. This review occurs annually, or more frequently if events or changes in circumstances indicate the carrying amount of the asset may not be recoverable. If there is indication of impairment, then management prepares an estimate of future cash flows expected to result from the use of the asset and its eventual disposition. If these cash flows are less than the carrying amount of the asset, an impairment loss is recognized to write down the asset to its estimated fair value.

Management believes that the accounting estimate related to impairment of the Company's property and equipment, is a "critical accounting estimate" because: (1) it is highly susceptible to change from period to period because it requires management to estimate fair value, which is based on assumptions about cash flows and discount rates; and (2) the impact that recognizing an impairment would have on the assets reported on our balance sheet, as well as net income, could be material. Management's assumptions about cash flows and discount rates require significant judgment because actual revenues and expenses have fluctuated in the past and are expected to continue to do so.

The Company reviews the carrying value of intangible assets for impairment whenever events and circumstances indicate that the carrying value may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to the amount by which the carrying value exceeds the fair value. The factors considered by management in performing this assessment include current operating results, trends and prospects, the manner in which the property is used, and the effects of obsolescence, demand, competition and other economic factors.

#### *Revenue recognition*

The Company recognizes revenue when all of the following conditions are satisfied: (1) there is persuasive evidence of an arrangement; (2) the service has been provided to the customer; (3) the amount of fees to be paid by the customer is fixed or determinable; and (4) the collection of our fees is probable.

Sales related to long-term contracts for services (such as engineering, product development and testing) extending over several years are accounted for under the percentage-of-completion method of accounting. Sales under these contracts are recorded based on the ratio of actual costs incurred to total estimated costs expected to be incurred related to the contract under the cost-to-cost method utilizing budgeted milestones or tasks as designated per each contract. Anticipated losses on contracts are recognized in full in the period in which losses become probable and estimable.

For all other sales of products or services the Company recognizes revenues based on the terms of the customer agreement. The customer agreement takes the form of either a contract or a customer purchase order and each provides information with respect to the product or service being sold and the sales price. If the customer agreement does not have specific delivery or customer acceptance terms, revenue is recognized at the time of shipment of the product to the customer.

#### *Stock-Based Compensation*

The Company records stock based compensation in accordance with the guidance in ASC Topic 718 which requires the Company to recognize expense related to the fair value of its employee stock option awards. This eliminates accounting for share-based compensation transactions using the intrinsic value and requires instead that such transactions be accounted for using a fair-value-based method. The Company recognizes the cost of all share-based awards on a graded vesting basis over the vesting period of the award.

#### *Reclassifications*

Certain reclassifications have been made to the prior years' financial statements to conform to the current year presentation. These reclassifications had no effect on previously reported results of operations or retained earnings.

#### **Off-Balance Sheet Arrangements**

As of June 30, 2015, we did not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K.

#### **Item 3. Quantitative and Qualitative Disclosure About Market Risks.**

This item is not applicable as we are a smaller reporting company.

## **Item 4. Controls and Procedures.**

### **Evaluation of Disclosure Controls and Procedures**

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in company reports filed or submitted under the Securities Exchange Act of 1934, as amended (the “Exchange Act”) is recorded, processed, summarized and reported, within the periods specified in the Commission’s rules and forms. Disclosure controls and procedures include without limitation, controls and procedures designed to ensure that information required to be disclosed in company reports filed or submitted under the Exchange Act is accumulated and communicated to management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

We conducted an evaluation, with the participation of our Chief Executive Officer (principal executive officer) and Chief Financial Officer (principal financial officer), of the effectiveness of our disclosure controls and procedures as of June 30, 2015. Due to the Company’s limited resources and number of employees, there is limited segregation of duties which leads to the irregular review of various reconciliation and control procedures. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that as of June 30, 2015, our disclosure controls and procedures were ineffective as a result of limited resources and personnel resulting in a lack of segregation of duties.

In order to address these concerns, the Company has taken remediation steps including hiring a new Chief Financial Officer and additional staff.

### **Changes in internal controls over financial reporting**

There have been no changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15 (f) under the Exchange Act) during the quarter ended June 30, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II - OTHER INFORMATION

### Item 1. Legal Proceedings.

None.

### Item 1A. Risk Factors.

Our significant business risks are described in our Annual Report on Form 10-K filed with the Commission on March 30, 2015 which is incorporated herein by reference.

### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

During the three months ended June 30, 2015, the Company authorized the issuance of 150,000 shares of its common stock for cash proceeds totaling \$75,000. As of June 30, 2015, these shares were unissued.

During the three months ended June 30, 2015, the Company authorized the issuance of 100,000 shares of common stock valued at \$13,000 to the Chief Financial Officer as compensation for services.

During the three months ended June 30, 2015, the Company authorized the issuance of 884,677 shares of common stock valued at \$188,876 to members of the Board of Directors as compensation for services.

During the three months ended June 30, 2015, the Company authorized the issuance of 10,000 shares of common stock valued at \$18,400 to an employee as compensation for services.

During the three months ended June 30, 2015, the Company authorized the issuance of 7,000,000 shares of common stock valued at \$1,800,000 for the purchase of a license agreement with HWW as described in Note 7.

During the three months ended June 30, 2015, the Company authorized the issuance of a total of 400,000 shares of common stock to two companies for services valued at \$87,000.

The Company relied on Section 4(a)(2) of the Securities Act of 1933 for issuing the above securities, inasmuch as the offers and sales were made solely to accredited investors and there was no form of general solicitation or general advertising relating to the offer.
